Work Experience

Walmart Global Tech

July 2024 – Present

Software Development Engineer II

Bengaluru, India

- **Platform:** Core contributor to Walmart's catalog data aggregation backend (IRO & Rollups) processing real-time product attribute updates at scale; Online Service ingests attribute signals via **Apache Kafka** into **Cassandra**, while Offline Service fans out parallel calls across downstream services to serve consistent data across **Walmart.com**.
- **Automation:** Automated manual data re-ingestion and audit table validation pipeline on **GCP** using **Java** and **Apache Kafka**, eliminating **10–12 DevOps hrs/week** and reducing manual operations by **75%**.
- **Analytics:** Built an internal analytics dashboard using **React**, **Node.js**, and **GraphQL** enabling customer support to run ad-hoc SQL queries, reducing on-call engineer reliance by **40%**.
- **Infrastructure:** Designed a reusable **Apache Kafka** producer framework with **retry policies** and **Dead Letter Queues (DLQ)**, adopted across multiple **microservices**, improving end-to-end message delivery reliability.
- **Performance:** Implemented **adaptive rate limiting** and backpressure control for Kafka producers, stabilizing high-throughput event streams and reducing peak message surges by **35%**.

Walmart Global Tech

January 2024 – June 2024

Software Development Engineer Intern

Bengaluru, India

- **Dashboard:** Built a returns lifecycle dashboard using **React**, **Node.js**, and **GraphQL**, standardizing order tracking workflows and improving order status visibility for support teams.

Walmart Global Tech

May 2023 – December 2023

Software Development Engineer Intern

Bengaluru, India

- **DevOps:** Built **dependency management** and secure **CI/CD** identity key generation for Walmart's internal developer platform, strengthening access governance and overall platform security.
- **Security:** Architected a **Java Spring Boot** gateway filter enforcing strict **authorization policies** for sensitive internal APIs, preventing unauthorized access to downstream services.

Zeko (formerly Qricle)

January 2023 – March 2023

Frontend Development Intern

Remote

- **Frontend:** Developed **SEO-optimized** web applications and admin dashboard using **Next.js SSR**, improving page load performance and organic search discoverability.
- **UI:** Delivered **responsive, accessible UI** components with cross-browser compatibility, improving user engagement and consistent cross-device experience.

Education

Indian Institute of Information Technology, Lucknow

2020 – 2024

Bachelor of Technology in Information Technology

CGPA: 8.6/10

Skills

Languages: Java, Python, TypeScript, JavaScript, C++, SQL, HTML/CSS

Frameworks and Tools: Spring Boot, React, Next.js, Node.js, GraphQL, REST APIs, Apache Kafka, PostgreSQL, Redis, Docker, GCP, AWS, Git, CI/CD, Vite, Vitest

Concepts: Distributed Systems, Microservices, Event-Driven Architecture, System Design, Rate Limiting, Scalability, OOP, Agile, Scrum

Open Source and Projects

Tokis – Open Source React Component Library

2026

- Built and published an open-source **React UI library** on npm with **500+ weekly downloads** implementing accessible **WAI-ARIA** components.
- Designed a **token-based styling system** using **CSS custom properties**, enabling scalable theming across consumer applications without any CSS-in-JS runtime overhead.

Self-Hosted Streaming Platform

2025

- Deployed a containerized streaming platform using **Docker** with encrypted remote access via **Cloudflare Tunnels**, implementing a **zero-trust architecture** with no exposed network ports.

Drone Development and Data Classification (Patent Pending)

2022 – 2023

- Led a **government-funded** research project for India's Ministry of Science and Technology developing an open-source drone platform for agricultural **ML** data analysis.

Achievements

- **Google Summer of Code 2022** Contributor (ScoreLabs)
- Codeforces **Specialist (1411)** | CodeChef **4-Star** | **Rank 7**, Codeforces Round 826
- **Innovator Award** – Hack-o-Fiesta Hackathon, IIIT-Lucknow
- **Hacktoberfest Maintainer** contributing to Internet Archive, Appwrite, CircuitVerse
