PROFILE

CS undergraduate and Google Certified Data Professional with hands-on experience building AI-powered analytics platforms, tracking business KPIs, and driving category growth. Proficient in Python, SQL, Excel, Tableau, and LLM integration. Strong bias for action in fast-paced, cross-functional environments with a proven record of delivering measurable impact.

EXPERIENCE

Data Analyst

Lata Software, Kota

May 2025 — July 2025

- Tracked business KPIs using Python, SQL, and Excel; built dashboards (VLOOKUP, Pivot Tables, Google Sheets) for revenue and customer behavior, delivering target vs. actual visibility to cross-functional teams.
- Performed EDA to identify performance gaps and operational inefficiencies, improving reporting accuracy and enabling data-backed category decisions.
- Delivered insights that improved cross-team decision-making speed and campaign efficiency by ~15%.

Consultant – Youth Leader

YP Foundation, Jaipur

Sept 2024 — April 2025

- Monitored engagement KPIs and conversion funnels across 20+ workshops; synthesized user behavior data driving a 30% improvement in participant engagement.
- Maintained pipeline trackers with CRM and operations teams, reducing process delays by 25%.

Growth Intern (Acquisition Ninja)

Zomato, Kota

May 2024 — July 2024

- Drove category acquisition campaigns cross-functionally with marketing and operations teams, improving campaign efficiency by 15% through structured field execution.
- Tracked GMV-impacting acquisition metrics; built vendor relationships and resolved onboarding issues in real time to support category growth targets and SLAs.

PROJECTS

AI-Powered Data Analysis Platform

- Built an end-to-end intelligent analytics platform with 6 modules: Smart EDA, automated Data Cleaning, ML Model Recommender, LLM-driven Insights Dashboard, Natural Language Query Engine, and PDF Report Generator.
- Implemented triple LLM routing (Groq Llama 3.3 70B → Gemini 2.0 Flash → Ollama Mistral 7B) with 7 token optimisations, reducing prompt cost by 60%; 167/167 unit tests passing. Supports any tabular dataset with zero coding required.

Sales Performance Analysis & Dashboard

- Analyzed sales data in Python and SQL to track revenue, profit, and GMV trends; built Tableau KPI dashboards with monthly trend visualisations enabling data-backed category decisions.

Customer Segmentation & Retention Analysis

- Performed EDA and RFM analysis to segment customers into high-value and at-risk groups; delivered actionable churn-reduction and retention strategies applicable to CRM-driven growth initiatives.

Pose3D – Real-Time Human Pose Estimation

- Applied Python and computer vision (OpenCV, MediaPipe) to estimate 3D human body poses in real time; improved model precision by iteratively fine-tuning parameters, reducing pose estimation errors by 12%.

EDUCATION & CERTIFICATIONS

B.Tech, Computer Science Engineering

JK Lakshmipat University, Jaipur • 2022–2026 • 12th: 95.3% • 10th: 89%

Google Data Analytics Professional Certificate (2026)

SKILLS

Analytics: Excel (VLOOKUP, XLOOKUP, Pivot Tables), Google Sheets, SQL (MySQL, SQLite), Python (Pandas, NumPy), Tableau, Google Analytics, R

AI / ML: LLM Integration, Prompt Engineering, NLP, RAG Pipelines, scikit-learn, API Orchestration, Computer Vision

Growth & Ops: Category Growth, GMV/KPI Tracking, Funnel Analysis, A/B Testing, User Behavior Research, Process Improvement, Pipeline Tracking

Tools: Jira, Confluence, Figma, Git, Microsoft Office Suite | **Cross-functional:** Category, Brand, CRM, Performance Marketing, Merchandising
